TO THE PAST

Directions: After reading the background information and examining the source, answer the questions below.

Background Information: *Canada officially joined World War II on September 10, 1939, seven days after the United Kingdom and France declared war on Germany. Troops were mobilized, and the entire population was encouraged to support the war effort by increasing production, rationing key resources, and supporting the government through the buying of Victory Bonds.*

Your Task: Examine the inferences below and return to the source. Which inference is best supported by the image?

Inferences	
Person 1:	The artist's intention in this illustration is to raise support for many Canadian women's demands for equal pay during WWII.
Person 2	The creator of this illustration wants to suggest that Canadian women capably filled the roles of men in the economy while many were in Europe fighting.

Multiple Choice: Which inference is most plausible?
   a) Person 1's inference is most plausible
   b) Person 2's inference is most plausible
   c) Both Person 1 and Person 2's inferences are equally plausible
   d) Neither inference is plausible

Short Answer Response: Explain your reasoning below.
